

The Moat Way· Our Core Purpose

Moat Community College

Our Values

In the table below are our five college values.

Every member of our college community has a duty to display and live by them.

All that we do at Moat Community College will be driven by these values.

We are an inclusive college and we believe that all students, given the correct support and guidance, can achieve great things.

We believe that being very clear about our values will support all students and staff in achieving this.
